*MoneyToys web site calculators, 3.0, released by Wheatworks Software.*

FOR IMMEDIATE RELEASE -- September 10, 2010

(Ruston, LA) MoneyToys™ website calculators are easily added to web sites. With a few lines of HTML and MoneyToys financial calculators, website owners can allow their visitors to perform financial calculations without leaving the website.

The installation of MoneyToys is simple. Anyone who has created a web page, has the skills required to install MoneyToys website calculators. Simple, step-by-step instructions and three sample web pages are included with each calculator.

The MoneyToys collection includes these calculators: an average interest rate calculator, an APR calculator, a biweekly payment calculator, a savings calculator, a simple loan calculator, a closing cost calculator, a home seller's proceeds calculator, a pay down debt or invest calculator, a loan spread calculator, a refinancing calculator, a future value of savings calculator, a loan comparison calculator, a discounted cash flows calculator, a mortgage qualification calculator and a rent or buy calculator.

Each MoneyToys calculator is easily configured to match a web site's color scheme. Also, each calculator's default values can be set to meet the needs of a particular market. For example, whether a typical loan in your market is \$250,000 or \$500,000, the default value is easily configured.

Developed by Wheatworks Software, LLC, the entire collection of MoneyToys calculators has been updated to version 3.0 and is available at [www.moneytoys.com](http://www.moneytoys.com).

Individual calculators may be purchased for \$39.95. For a limited time, the entire collection of 17 online calculators may be licensed for a one-time fee of only \$139.95 at [www.moneytoys.com](http://www.moneytoys.com). For information, visit [www.moneytoys.com](http://www.moneytoys.com) or contact Wheatworks Software, LLC, Post Office Box 7, Ruston, LA 71273.
